✓ **What is one potential drawback of using free-format questionnaires?** *1/1

a) They force respondents into predefined answer choices
b) They can yield responses that are difficult to quantify and compare
c) They always lead to biased responses
d) They are too short for meaningful analysis

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **What does "measurement scales" refer to in survey research?** *1/1

a) The tools used to physically measure respondents' heights
b) The process of assigning numbers to survey responses for quantification
c) A method to determine survey cost
d) The scale used to track the number of survey participants

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **Which of the following best describes a correlational survey?** *1/1

a) It explores the relationship between two or more variables without inferring causality
b) It manipulates variables to determine cause and effect
c) It is only used for experimental surveys
d) It exclusively uses closed-ended questions

- ◉ A ✓
- ○ B

✓ **What is a key consideration when writing a consent form for survey participants?** *1/1

a) Avoiding any mention of the study purpose
b) Clearly stating the purpose, data usage, confidentiality measures, and any potential risks
c) Including only legal jargon
d) Requiring participants to waive all rights

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **When designing a survey, why is it important to choose the correct target population?** *1/1

a) It minimizes the number of questions needed
b) It ensures that the data collected is relevant and representative of the group being studied
c) It allows for the use of open-ended questions only
d) It reduces the cost of data analysis

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **Which of the following is an advantage of open-ended questions?** *1/1

a) They are easy to analyze
b) They allow for detailed responses
c) They restrict responses to fixed choices
d) They save interview time

- ○ A
- ◉ B ✓

✓ **Which survey type collects data at a single point in time?** *1/1

a) Longitudinal survey
b) Cross-sectional survey
c) Panel survey
d) Experimental survey

- ○ A
- ◉ B ✓
- ○ C
- ○ D

Name *

عبدالرحمن احمد عبدالمنعم

✓ **What is the primary purpose of a survey?** *1/1

A. To develop theories
B. To collect large-scale data efficiently
C. To design experiments
D. To replace interviews entirely

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **Which of the following is a characteristic of a well-designed questionnaire?** *1/1

a) Specific and clear language that matches the respondents' vocabulary
b) Ambiguous wording
c) Overly technical terminology
d) Lengthy and complex sentences

- ◉ A ✓
- ○ B
- ○ C
- ○ D

✓ **Which method is used to observe participants without interfering with their behavior?** *1/1

a) Structured interview
b) Online questionnaire
c) Direct observation
d) Focus group discussion

- ○ A
- ○ B
- ◉ C ✓
- ○ D

ID *

23011311

✓ **Which is a fixed-format survey?** *1/1

a) Google Forms with predefined answer choices
b) An essay-based survey
c) A face-to-face discussion
d) An open-ended feedback survey

- ◉ A ✓
- ○ B
- ○ C
- ○ D

✓ **What is an example of a cohort study?** *1/1

a) Tracking opinions of different age groups at one point in time
b) Following a group of graduates over time
c) Conducting a one-time customer feedback survey
d) Running an online poll for a day

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **What is one risk associated with panel surveys?** *1/1

a) They always use outdated questions

b) Panel dropout can lead to biased results

c) They cannot track changes over time

d) They never use follow-up questions

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **Which survey method involves the direct observation of behavior?** *1/1

a) Questionnaire

b) Interview

c) Observation method

d) Experimental survey

- ○ A
- ○ B
- ◉ C ✓
- ○ D

✓ **Which survey design is most appropriate for testing the effect of question wording on respondents' opinions?** *1/1

a) Correlational survey

b) Longitudinal survey

c) Descriptive survey

d) Experimental survey with A/B testing

- ○ A
- ○ B
- ○ C
- ◉ D ✓

✓ **What is one major limitation of cross-sectional surveys?** *1/1

a) They can track trends over time
b) They are very expensive to conduct
c) They provide a snapshot and cannot establish cause-and-effect relationships
d) They require extensive longitudinal data

- ○ A
- ○ B
- ◉ C ✓
- ○ D

✓ **How can survey researchers address the problem of non-response bias?** *1/1

a) By making the survey longer
b) By following up with non-respondents with reminders or alternative contact methods
c) By increasing the number of closed questions
d) By reducing the target population

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **What is one risk associated with panel surveys?** *1/1

a) They always use outdated questions
b) Panel dropout can lead to biased results
c) They cannot track changes over time
d) They never use follow-up questions

- ○ A
- ◉ B ✓
- ○ C

✓ **Which interview style offers flexibility while still following a general guideline?** *1/1

a) Structured interview
b) Unstructured interview
c) Semi-structured interview
d) Group interview

- ○ A
- ○ B
- ◉ C ✓
- ○ D

✓ **Which structure starts with closed-ended questions and moves to open-ended ones?** *1/1

a) Funnel
b) Pyramid
c) Diamond
d) Circle

- ○ A
- ◉ B ✓
- ○ C
- ○ D

✓ **Which of the following is a characteristic of non-experimental surveys?** *1/1

a) They involve manipulation of variables
b) They describe or analyze data without testing cause-and-effect
c) They require random assignment of participants
d) They exclusively use laboratory experiments

- ○ A
- ◉ B ✓
- ○ C
- ○ D
